

NOW IN HANDS
OF THE JURY

The Trial of Tone Tompkins
Concluded this
Morning

Arguments Lasted Three Hours
—Jury Took the Case
at 11:45

Much better progress was made in the Tone Tompkins trial Thursday than was expected. The introduction of testimony was concluded Thursday evening and the arguments were made this morning.

Judge Sparks gave each side one and one-half hours for argument. Deputy Prosecutor Kiplinger opened for the State and was followed by Attorney Young for the defense and Prosecutor Bassett closed for the State.

The attorneys for the defense argued that, as Judge Morris expressed it, Tompkins was "crazy rotten drunk," at the time of the assault, that he did not know what he was doing, and that he did not intend to kill Morgan. They admitted that liquor had been a curse to him, but said that the trouble had been a lesson to him and promised that he would reform. They did not deny that he had committed an assault and battery upon Morgan, but did deny the intent as alleged in the indictment.

The State's attorneys argued that the fact that Tompkins had made a pair of rabbit metal knucks, carried them with him, had once tried to pick trouble with Morgan, and had twice threatened, before others, to "fix Morgan before night," showed malice and intent to murder. They also argued that the wounds on Morgan's head had been made with knucks.

The argument was concluded at 11:40. Judge Sparks instructed the jury in writing and it retired at 11:45.

The jury was still out at 4 o'clock.

During the argument this morning Tompkins' father and mother, Mr. and Mrs. Pat Tompkins and his wife and two little children sat with him. Tompkins spent much time in fondling the children and seldom glanced at the jury.

AN AUTOMOBILE
RUNS OFF GRADE

Dr. Gus Shauck is Painfully
Hurt—Machine Badly
Damaged

About 9 o'clock Thursday night, Doctors Houghland and Barton, of Milroy, and Augustus Shauck, of Arlington, while on their way to Milroy met an unknown man in a buggy at the culvert on the Milroy pike, a short distance north of Charles Frazee's barn, one mile south of this city. The fellow refused to concede half of the road, and was met by the automobile almost on the culvert. In passing Dr. Houghland who was acting as chauffeur, lost control of the machine and it swerved to one side, plunging down the embankment and turning over. The three physicians became entangled in the machine and the wire fence, and the auto was damaged to the extent of about \$200. The fellow in the buggy drove on as if nothing had happened. The automobile was a Reo, of the runabout type and was valued at about \$650. Both axles were broken, two wheels were smashed and the machinery badly damaged. Dr. Shauck was badly cut and bruised about the face. Dr. J. C. Sexton, of this city, was called to assist in attending him. Dr. Barton's clothes were torn almost to shreds and he sustained a few cuts and bruises. Dr. Houghland escaped with few bruises.

TAFT WILL
TAKE REINS

Cuban Republic to Pass as
an Independent Government Today

Such is Present Program Which
is Not Likely to be Materially Modified

Oyster Bay, N. Y., Sept. 28.—That there is still a feeling of hope in the highest circles that order eventually will be restored in Cuba seems apparent.

Havana, Sept. 28.—The Moderate party has decided to make a final effort to perpetuate the authority of the Palma administration by determining to reject the resignation of the president when presented to congress today. When this decision was reached Secretary of War Taft and Assistant Secretary of State Bacon, the American commissioners, had already concluded to intervene, but they agreed to await developments, as they are anxious to afford the Cubans every opportunity to work out their own salvation.

President Palma steadfastly refuses every solicitation of his friends to withdraw his resignation. Typical of this was the cablegram he sent to President Roosevelt in response to the final urgent message from the American president that he remain at his helm. In this President Palma expressed his warmest appreciation of President Roosevelt's efforts to secure peace for Cuba and the friendship he has always shown the Cuban people.

Immediate developments in the situation depend on the action taken by congress today. It is not likely that the Liberals will attend the session, but the Moderates and the Liberal Nationalists combined expect to secure a quorum. The Moderate leaders expect nothing except intervention. Even should congress carry out its announced intention of not accepting President Palma's resignation, Secretary Taft will hold that a vacancy exists unless Palma himself concludes to remain in office.

In the meanwhile preparations for the landing of marines and bluejackets from the American warships have been fully completed, and within a short time after Secretary Taft gives the order all advantageous points which already have been selected by naval officers would be occupied by a force of at least 2,500 men. Such an order would not be given until Secretary Taft regards it as absolutely necessary, but it is certain that the present conditions will not be allowed to continue for more than one day longer. The non-acceptance of President Palma's resignation and its withdrawal will be Cuba's last card.

General Frederick Funston has arrived here. He has gone over all the military plans, approved them and familiarized himself with the military situation as presented by Major Ladd, who has been here for a fortnight.

Were it possible to induce President Palma to withdraw his resignation the situation still would be most difficult, and intervention would continue to be the most probable outcome. If Palma's resignation were accepted it would then become necessary for congress to elect a provisional president. Such an election would be a new sort of contention, not only between the opposing political parties, but probably between the opposing factions within these parties. The American commissioners will not brook the establishment of a provisional government by the Cubans simply as a means of gaining time. They hold that if a provisional government is created it must be by the United States. Secretaries Taft and Bacon would not be properly discharging their full duties if such a government were created in any other manner.

The American commissioners have little confidence in the seriousness of the intentions of the politicians, who have been vacillating and insincere throughout these nine days of futile negotiations. This being the situation, nobody is inclined to doubt that within twenty-four hours Secretary Taft, by authority of the president of the United States, will proclaim himself provisional governor of Cuba.

The city's markets have opened for the season.

NEW CAMP OF
THE WOODMEN

Is Installed at Andersonville—
Local Woodmen
Present

About twenty members of Burr Oak Camp, Modern Woodmen of America, of this city, drove to Andersonville last night and instituted a new lodge of thirty-one charter members. At the conclusion of the work a big banquet was spread. The local Woodmen returned home at 2 a. m. The new lodge was instituted in Gwynnup's hall. Dr. Marshall was elected to the head of it.

FAMILY ROW IN
THE WEST END

Marshal Price Called to the
Home of Mr. and Mrs.
John Newman

At 9 o'clock last night Marshal Price was called to the home of John Newman, near the city dump in the west end, to quell a family row. Newman, it seems, came home intoxicated, and is accused by his wife with threatening her life with a butcher knife. When the marshal arrived Newman had quieted down, considerably, but his wife took the six children and went to the home of Newman's mother, a short distance away, where she spent the night.

WILL WIN BY
BIG PLURALITY

Louis Ludlow Gives Result
of His Observance in
This District

Gowdy is Boomed for Governor
by District Chairman
Carr

The following story by Louis Ludlow, the Washington correspondent of the Indianapolis Star, who visited this city this week, appeared in the Star this morning:

"We will send James Watson back to Congress by the usual off-year plurality at least," said Owen L. Carr, member of the Republican State committee today. "For this reason, and for the good of the Republican party, we urged Mr. Watson to accompany Speaker Cannon and assist in gaining Republican votes for candidates in other States." Continuing Mr. Carr said:

"I think that conditions in the district are about the same as in any other year and I believe that Mr. Watson will have a plurality in the neighborhood of 3000 votes."

While Mr. Carr declined to comment on the local situations in the various counties, the following estimates were furnished by other intimate friends of Mr. Watson, who are identified with the party organization:

Counties	Watson's Plural.	Kuhn's Plural.
Rush	350	...
Fayette	700	...
Wayne	1,500	...
Henry	1,500	...
Hancock	...	350
Decatur	800	...
Franklin	...	800
Union	300	...
Shelby	...	100
Totals	4,650	1,550

It is predicted that Watson will run fifty to 150 votes behind the Republican State ticket in Rush county. He is expected to poll the full strength of his party in Fayette, Franklin, Union and Shelby counties. In Decatur county the Republican opposition to Watson has practically disappeared. A few Republicans in Hancock county may vote against him, but his losses, according to his friends, will not be noticeable except in Wayne and Henry counties, where he may lose some votes chiefly because of disappointments growing out of the distribution of patronage. While watching the interests of Congressman Watson, Mr. Carr also has another friend he desires to be honored in a political way. He today put in motion a boom for Capt. John K. Gowdy for the Republican nomination for Governor. Mr. Carr is a very close personal and political friend of Capt. Gowdy. He held the office of auditor of Rush county eight years and is one of Capt. Gowdy's proteges. "Uncle Jack" has helped many young men in this community over the rough places in life and none of them is more grateful than Mr. Carr.

"I am for Capt. Gowdy for the Republican nomination for Governor in 1908," said Mr. Carr, "because I think he is pre-eminent the man to lead the Indiana Republicans in the next gubernatorial battle. He is close to the farmers and to the entire Republican working force of the State. He does well every task that he undertakes. His record as a county official, State chairman and consul general at Paris is clean as a ribbon. His private fortune is such as to enable him to devote his entire time to the interests of the State if he were nominated and elected."

Mr. Carr added that he was not speaking for Capt. Gowdy, who, he was quite sure, has no gubernatorial aspirations. He insisted, however, that the opportunity to draft Capt. Gowdy to lead the Republican hosts in 1908 is one that the party cannot overlook.

It is expected that Capt. Gowdy himself will be the first man to balk against the program outlined by District Chairman Carr. Few men obtain as much enjoyment out of life as has Capt. Gowdy since his return from Paris. He spends a great deal of time looking after his farm of 700 acres west of Rushville, and no one was ever more admirably situated to do those things that please him and to pass by those things that are distasteful. Capt. and Mrs. Gowdy are prime favorites here and their house is a center of social hospitality.

A WRECK ON
THE C. H. & D.

Spreading Rail Causes Cars
to Leave Track at
Hurricane

A spreading rail caused a wreck on the C. H. & D. Thursday evening at Glenwood, that delayed traffic for two or three hours. The train wrecked was a west-bound freight and it was running about six miles per hour at the time of the accident. The track spread at a weak point after the first part of the train had passed over, derailing three empty cars near the center of the train. The track was badly damaged for a short distance, but the Connersville wrecking crew had the cars righted and all repairs made within a short time. No one was injured.

IN ORDER TO
SAVE THE QUAIL

The Law Strict During Closed
Season Beginning
Monday

There is one day yet in which a man may hunt and not violate the law, providing he has consent of the State in the shape of a license and can coddle the man on whose land he wants to hunt into giving permission. From next Monday until November 10th is a closed season in Indiana and even the rabbit, ordinarily considered fair game any old time he is sighted, can frisk his stub tail in defiance to man and dog—providing he can out run the latter—and enjoy six weeks of absolute protection under the law. From October 1st to November 10th duck and other water fowl can be legally killed, but nothing else. The purpose of the closed season is to protect quail from hunters who go into the fields ostensibly to shoot rabbits, but who in reality are in search of quail. To make the law strong a man is liable to arrest for being found with a gun in the woods during the closed season and it is as much against the law to take birds dogs out for practice during the season for protecting quail. The wise man, especially if he be an honest and conscientious sportsman, will give his gun a rest until after November 10th.

HAD A VERY
BAD LOOK

Ring Around the Moon Last
Night Observed by
Many

Winter Will Come With a
Swoop Unless the Sign
Fails

Persons who trace weather signs by the moon, judging from its pale face on Thursday night have every evidence in the world to lay claim to a spell of falling weather. The moon had a large ring around it, much larger and plainer than one often sees. It remained from eleven o'clock until early this morning. A light breeze blew all night which gradually grew colder and colder and causes one to think of the nice days when the thermometer gets down to the zero mark.

The day of the straw hat is drawing to a close and the low cut shoes and slippers must soon be covered with gaiters or be consigned to the summer pile of stow-aways. The linen trousers with their jaded look can find rest in the bottom of the trunk where they have ample time to keep cool or warm as the spirit may move.

The third season's straw hat looks much better on top of the china closet than on top of some cabbage head on the street. People will talk about rushing the season if you appear with an overcoat on but then the best way to avoid sore throats and cold is to do as your feelings dictate.

The time for indigestion and malarial fever has arrived and the physician with his little pill bag and medicine dispenser is no uncommon sight wending his way up and down the streets at all times of the night.

Winter is drawing near and so are the coal bills; the clothiers sit back with contented smiles on their faces while the heavy clothes pass upon your back and the money goes scooting in their pockets.

Judging from the ring around the moon on Thursday night, winter will come with a swoop, but we trust for once that even this old "residential" sign will fail.

BE CAREFUL IN
CASHING ORDER

Money Order Raiser Operating in this Part of the
Country

Circulars issued from the office of the general postoffice inspector at Cincinnati have been received at the local postoffice advising the office here of the work of a money order raiser who is operating in this section of the country. The crook operates by buying a postoffice money order for fifty or sixty cents and raising it to five or six dollars. He usually goes into a jewelry store after supper and makes a small purchase, tendering the order in payment, saying that the postoffice is closed. He has no trouble as the merchant does not take the time to note that the order has stamped across the face of it above which amount the order cannot be issued. So far the crook has worked under the names of James Hart, Thomas Ward, James Smith and John Kenney.

He is described as a man fifty-five or sixty years old, weight about 160 pounds, height five feet ten inches, gray hair and smooth face. From his conversation he appears to be a railroad man or a telegraph operator.

The circular becomes an order to cause his arrest wherever he may be apprehended. It seems that the fellow has small trouble working his game. Postmasters are ordered to arrest any man bearing that description who buys a money order.

Mr. Bryan's statement that possibly the time is not ripe for government ownership is probably prompted by the discovery that the people are not green enough to receive the suggestion of the theory with enthusiasm.

"Our Democratic exchanges are still struggling with the job of proving that the farmers of Indiana were better off under the Wilson tariff law in 1896 than they are under the Dingley tariff law in 1906. Every farmer who is capable of being convinced of these arguments ought to vote for the conditions of 1896 over again at the approaching election.

"No man who has accumulated enough to make a comfortable home for himself," says the Cincinnati Enquirer, "will listen with any patience to the plans of those who purpose to seize the land for the benefit of the community or to turn over the operation of all the farms to the government agencies. It is to home owners that we must look for the sane and conservative influences which will turn back and frustrate the rising tide of socialism in this country, and consequently it is important that we should do everything possible to increase their number not only because they make the most desirable class of citizens, but as a policy tending to strengthen and conserve our institutions."

Bacteria, microscopic wigglers, are fast coming to the front as the farmer's best friends. Already they catch nitrogen to fertilize the soil; they ripen cream, flavor butter, ferment manures, etc., and now it is asserted that they cure tobacco. The day is not far distant, it is claimed, when commerce in high-bred tobacco bacteria will be an established fact.

Let the scientists next discover a

fighting breed of bacteria which will set upon and destroy the tuberculosis germ and other disreputable members of the tribe, and there will be a little less to desire. Who knows but that some genius will start a bacteria farm, and advertise stock of pedigree germs and special cross-bred bacilli for the use of the doctors and farmers?

WOMAN'S SUFFRAGE

State Federation of Labor Declares for This Reform.

Indianapolis, Ind., September 28.—The State Federation of Labor endorsed a resolution favoring woman's suffrage for Indiana. It also declared for the enactment of a two-cent-a-mile fare law for steam roads and commended the anti-tuberculosis crusade of the American Federation of Labor. A resolution recommending that a movement be started to obtain half fares for workmen on streetcars and interurbans during certain hours of the day was adopted. The federation commended the work of Factory Inspector McAbee and adopted a resolution against the employment of girls under eighteen in tobacco factories. It demanded the enactment of a law prohibiting the sale of convict made goods in the open market in competition with that of free labor. It was decided to hold the next convention at Muncie, which received 57 votes; Evansville, 33; Lafayette, 20.

Chairman O'Brien has returned to his home at Lawrenceburg, leaving the arrangement of Bryan's Indiana itinerary to Chairman Hendren of the speakers' bureau. Chairman O'Brien will return, however, Sunday, and the itinerary will be completed probably by the first of next week. Chairman O'Brien said that the second day's trip will be started from Indianapolis and will wind up here at night with a monster rally for which Chairman Davis of the county committee is now making arrangements. It was thought that the special would leave Evansville the morning of the second day and that speeches would be made coming northward, but Bryan's car will be attached to the regular Evansville & Terre Haute train leaving Evansville after the meeting and brought to Indianapolis by the way of Terre Haute. It will reach here about 4 in the morning and will lie here until about 7, when the trip will be resumed. Chairman O'Brien contemplates a big swing around the circle on the second day that will probably include Anderson, Muncie, Alexandria, Marion, Peru and some other points in the gas belt. After the night meeting here the car will be attached to the regular Pennsylvania train leaving at midnight for Chicago. It will be detached at Logansport and started from there toward South Bend early next morning. An early morning meeting will probably be held at Logansport. It is Chairman O'Brien's plan to spend all of the last day in the Thirtieth and Twelfth districts, closing the tour at Fort Wayne at night. Bryan will go into Ohio from Fort Wayne.

It is very likely that there will not be much of a speechmaking campaign on the Democratic side before the coming of Bryan, Oct. 22. All of the candidates for congress are working hard. Most of them are averaging one speech a day. A lot of spellbinding is being done that does not receive mention in the newspapers, and yet is said to be of the effective sort. Bryan's coming will be made the occasion for a score of big rallies that will probably attract thousands of voters in the communities where they are held. The "Great Commoner's" itinerary will be announced far enough ahead for arrangements to be made at the rallying points. Following his tour the real hustings will begin on the Democratic side and will be continued in a most aggressive way until the last gun is fired.

Chairman O'Brien entertains great hopes of a Democratic victory in the Twelfth district this year. He says that if the Democrats of Allen county roll up anything like an old-time majority, that Dr. Morr will be elected easily, as the rest of the district is in good shape. He does not believe that the result in the landslide indicates the true political color of the district. Among the Democratic leaders here considerable comment was made on Newton W. Gilbert's resignation. They remark significantly that he stuck to the pay-roll as congressman just as long as he could before resigning his seat.

Vice President Fairbanks will be assigned for three or four Indiana speeches as soon as he returns from his Western tour. It is very likely that the Republican state committee will have Bryan followed by the vice president, Senator Beveridge, Governor Hanly and others belonging to its galaxy of stars.

Look Out for This Swindler.

Fort Wayne, Ind., Sept. 28.—The postmasters of northern Indiana have been passing along a warning from one to another to notify their patrons to beware of the money order raiser. He cheats storekeepers by appearing after postoffice hours to make a small purchase and offers a money order in payment. It looks all right, and when indorsed the fellow frequently obtains considerable cash in change. The secret service officials are hoping to obtain a description of the man.

TOO MUCH FOR JEROME

Outspoken District Attorney Gags at the Hearst Ticket.

New York, Sept. 28.—The day after the close of the two state conventions was not marked by any degree of activity in the working ranks of Republicans or Democrats, but was given up to discussion and preliminary straightening out of the ranks into lines of battle for the campaign.

District Attorney Jerome in reply to a request for an expression of opinion, said: "After watching carefully and being in a position to know what happened at the alleged Democratic convention at Buffalo, I do not believe that any man who is a real Democrat is bound by his allegiance to the Democratic party to abide by the action of such a fake convention. I shall work all I can in every way and any way I can to serve the Democratic party by securing the election of Charles E. Hughes as the governor of the state of New York."

ESCAPED WITH LIGHT FINE

Incitement to Massacre Held as a Small Offense.

St. Petersburg, Sept. 28.—In Kutais province, in the Caucasus, the home of the turbulent Imereians, Mingrelians and Georgians, punitive detachments have resumed operations and are energetically searching for M. Ramischwilli, a member of the outlawed parliament, who is the leader of agitation. M. Levroff, author of an anti-Jewish pamphlet entitled, "Measures for rooting out the evil in Russia," published in March last and calling for the extermination of the Jews, and who has been described as an official of the ministry of the interior, has escaped with a fine of \$50. It was established at his trial that the pamphlet was printed in a typographical establishment of the ministry of the interior, attached to the prefecture of police. The pamphlet, besides urging on the population that it is their sacred duty to kill Jews on sight, assailed Count Witte, who was premier when it was printed.

THE MAD HOUSE

Will Probably Be the Future Retreat of Harry Thaw.

New York, Sept. 28.—It is learned that Harry K. Thaw is to be examined before a lunacy commission. This step has been decided on by Thaw's lawyers after much persuasion by Mrs. William Thaw. She plans to avoid having him placed on trial for the slaying of Stanford White, preferring to have him sent to the Matewan asylum for the criminal insane.

An application for the appointment of the lunacy commission will be made, it is understood, before Justice Blanchard next week in the supreme court, criminal branch. The application will be based upon affidavits of several of Thaw's lawyers and of alienists who have made a thorough physical and mental examination of the prisoner. The district attorney's office will offer no opposition.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Trouble.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all the ills which are caused by weak or disordered kidneys.

Thomas Kennedy, of 246 Meridian street, Shelbyville, Ind., employed in the furniture factory, says: "Three or four years ago I began having rheumatic pains in my hips. It would wear off at times, but any slight cold brought it on again. I commenced to have lameness in the small of my back, a bad feeling in the top of my head, and kidney secretions became unnatural and irregular. I procured Doan's Kidney Pills at a drug store, and they banished the trouble I have mentioned. I can confidently recommend Doan's Kidney Pills to others suffering from backache or other kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn-Co., Buffalo, New York, sole agent for the United States.

Remember the name—Doan's—and take no other.

THOUGHT THEY WERE JOKING

Laporte Highwaymen Quickly Disabuse This Young Man.

Laporte, Ind., Sept. 28.—While resisting the efforts of two men to hold him up early this morning, Bert Silvey, a barber, was shot below the heart and is in a serious condition. Silvey thought the affair was a joke, for it occurred in a thickly populated residence district and near an electric light. When commanded to hold up his hands he failed to comply and began joking with the men, at the same time backing off.

Thinking he would do a little joking himself, he moved his hand toward his hip pocket as though he would draw a revolver. One of the men at once shot at Silvey, the bullet after passing through the clothing, struck a rib and glanced off without, as far as known, touching any vital organs, though physicians have been unable to find the bullet, which is believed to be somewhere in the abdominal cavity. Though his condition is serious, physicians believe Silvey will recover, unless blood poisoning should set in. No trace of the highwaymen can be found.

You have been seeing us climb. We ourselves have made the rounds to the ladder of our success. Of what? Buying good goods; selling good goods at only reasonable profits; dealing squarely—giving all customers the same price; standing behind everything we sell; treating our patrons with courtesy; and, as you know, by attending to our business and carrying the stock. Good intentions come only out of the head; good goods must come out of a good store that is able to get good goods; we enjoy our business. Activity, progress, is enjoyable. We are business men, proud of our profession, and we make a profession of our business. A professional man is a man especially skilled in what he does. We have made a study dressing people; this is our profession. And this is our confession.
